EXPERIENCE

Sr Web Developer

LL Flooring 📅 03/2019 - 12/2024 📍 Richmond, Virginia

- Increased Site Improve's accessibility score on legacy e-com website from mid-fifties to mid-eighties, within a few months
- Converted the legacy site to a Salesforce Commerce Cloud platform
- Implemented Google Analytics tracking across current and legacy sites
- Coded the whole menu (desktop and mobile) from scratch, ensuring it was ADA compliant
- Optimized website performance through efficient coding practices, resulting in improved load times and user engagement metrics

UX/UI Developer

NDP Agency 📅 10/2016 - 03/2019 📍 Richmond, Virginia

- Increased user engagement by 20% through crafting immersive web app games with AngularJS and Adobe tools
- Increased performance by 30% by engineering custom WordPress themes and implementing headless WordPress API
- Streamlined web development processes, integrating third-party APIs (Box.com, Mapbox, WordPress) and online database services to accelerate project delivery and improve functionality

UX/UI Designer and Developer

Unboxed Technology 📅 05/2010 - 09/2016 📍 Richmond, Virginia

- Developed assisted sales tools for in-store and field reps, created in JavaScript, CSS, Adobe Animate, and AngularJS that were used by Fortune 100 and Fortune 500 companies on a daily basis across the country
- Created animated, informational videos for clients, using an Animate to After Effects workflow that I created to expedite development time
- Developed custom SCORM-compliant eLearning modules in AngularJS, optimizing training efficiency and knowledge retention
- Spearheaded interactive app development for Comcast, revolutionizing customer engagement through iPad and touch screen TV displays nationwide
- Edited and optimized screen captures, videos, and audio files for web
- Mentored junior developers

Web Developer

Bytejam 📅 03/2009 - 01/2010 📍 Richmond, Virginia

- Turned Photoshop comps into pixel perfect websites and flash widgets
- Actively participated in estimation meetings, contributing technical insights to enhance project planning and resource allocation for web development initiatives

UX/UI Developer/Designer

Circuit City 📅 09/2007 - 01/2009 📍 Richmond, Virginia

- Developed over twelve Flash-based product demos to aid The City (Circuit City's concept stores) employees in demonstrating retail technology concepts
- Created interactive selling assistants for Firedog, which helped to boost sales from \$200k to \$400k within six months
- Produced interactive Flash educational product aids for HP TouchSmart computers, prompting Hewlett Packard to delegate three machines per The City store location
- Webmaster for Circuit City's The City internal website

Freelance Work

Four Hour Window 📅 2001 - Present 📍 Richmond, Virginia

- Created the local music portal gathering over 100 artists, Richmond Radio to highlight local musicians and venues in the Richmond, VA area
- Worked as lead frontend developer at iLearn Essentials to help create Reading Right on Time, a web-based tool that uploaded audio and leveraged IAM Roles for login and Amazon Transcribe to access children's' reading passages
- Charitable WordPress development and maintenance for readtothem.org

EDUCATION

K-6 Teaching Certificate

University of Richmond 📅 09/2007 - 01/2010 📍 Richmond, Virginia

- National Honors Society: Magna Cum Laude

Bachelor of Science

Eastern Michigan University 📅 09/1997 - 01/2000 📍 Ypsilanti, Michigan

- Major: Telecommunications and Film, Minor: Earth Science
